POST 6 OF 8 247/280 characters

Redbelly says he joins "to lead the company's push into regulated tokenisation". In his words: "In payments, I learnt that success belonged to the company that saw compliance as a product edge rather than a tick box." (6/8)

POST 7 OF 8 265/280 characters

Context: ASIC says Australia's new laws for digital asset and tokenised custody platforms commence on 8 April 2027. Tokeniser, a Redbelly Network project, serves funds, share registries and asset administrators. (7/8)

POST 8 OF 8 275/280 characters

Analysis, not fact: his record centres on infrastructure that runs in the background, sold through partners, with compliance as a feature. That may shape how Tokeniser is pitched to institutions. The announcement does not set out his priorities. (8/8)
